Performance and Audit Scrutiny Committee 30 January 2012

Key Performance Indicators – Third Quarter 2011/2012

REPORT

Summary

Total number of KPIs = 40

Total number of Red indicators = 6

Total number of Amber indicators = 5

Total number of Green indicators = 14

Total number of contextual indicators = 11

Total number of KPI's where data not available = 4

The report attached as Appendix A shows the second quarterly report of Key Performance Indicator (KPI) data. There are 40 indicators in total.

The columns included in the table, and a description of what data they contain, are as follows:

- **Number** number of KPI within the report
- Code and short name details of what is being reported, including indicator code (the * denotes that this performance measure is a KPI on the Performance Management system, as opposed to a local indicator used within services) and short description
- Target shows details of annual target.
- **Performance** These columns show the performance (value) and target for each quarter.
- Quarterly Traffic Light Icon The icon reflects the status of the KPI, quarterly performance against target
 - o PI significantly below target
 - o API below target but within agreed tolerance

- o PI on or exceeded target
- Contextual indicator
- Short Term Trend Arrow The arrows to compare current quarter with previous quarter. Downward arrow always indicates negative trend regardless of calculation method of KPI.
- **Performance year to date** This column shows the current year to date performance value.
- **Comparison 10/11** This column shows the previous year's performance as a comparison.
- Latest Note this provides an opportunity to explain performance, and identify any actions to improve performance.

The KPIs are presented in a way that prioritises the indicators and enables the Committee to focus on those indicators which are underperforming or below target. The KPIs are presented in the following order:

- All red indicators
- All amber indicators
- All green and contextual
- All indicators where data not available.

PURPOSE OF THE REPORT

The Committee is asked to examine, with officers, the third quarterly performance monitoring sheets attached at Appendix A and refer any major service issues and developments requiring attention to Cabinet.

1		SEEHH160* Number of affordable homes delivered	60	10	5	0	10	0	15		_	10	121	Number of affordable homes delivered in quarter one reported originally as seven; however, one property, Lethrede House in Risby, housed four tenants with learning disabilities in their own accommodation with shared kitchen and living room, therefore should have been reported as four supported housing units, rather than one. The number reported should have been 10. Although the indicator is red for this quarter, it is anticipated that the target will be met by the end of Quarter Four. The attached Appendix 1 outlines the starts on site and expected completions for 2011/12.

2	SEEHH164* Number of empty properties brought back into use.	12	7	3	0	3	0	3			7		Bringing empty homes back into use is a long term action. Many of the long term empty properties in the borough have been returned to use, but often it is difficult to establish whether this is by direct intervention by officers or whether they would have been brought back into use without any intervention. Officers are currently directly involved with a number of properties where the owners have committed to bringing them back into use, and which officers are closely monitoring through a multi-departmental group. It is anticipated that two or three will be ready for occupation in Quarter Four.
3	SEPLN157a* Percentage of major planning applications determined within 13 weeks	100%	83%	100%	75%	100%	71%	100%	•	.	76.33%	78.75%	Of the seven major applications determined this quarter, two took longer than 16 weeks. Both were the subject of prolonged negotiation and amendments. They were referred to Committee and approved.
4	SEPLN157b* Percentage of minor planning applications determined within 8 weeks	100%	77%	100%	59%	100%	63%	100%		•	66.33%	83.5%	Of the 68 minor applications determined in this quarter twenty five took longer than eight weeks. These were the subject of prolonged negotiations and late amendments, three were referred to the Ward Member and approved, nine were referred to Committee (of which eight were approved) 13 were determined under delegated power (10 of which were approved).

Thirty seven of these were determined under delegated power (thirty five of which were approved). Three were referred to the Ward Member and all approved. Eleven were referred to Committee and all approved.
é	toi ho ari be loc	EWSS011* Total onnage of busehold waste rising which has een sent by the cal authority for ecycling	11,106	2,445	2,776.5	2,427	2,776.5	2,404	2,776.5		•	7,276	10,284	This indicator relates to the tonnage of material sent for recycling from both the blue bin scheme and bring sites. Although this tonnage is down in comparison to both the previous quarter and at the same time last year, our tonnage of material sent to landfill (SEWSS191) has remained on target indicating that this waste has not been transferred into the black bin. Officers are also currently undertaking projects to potentially recycle more glass, ink cartridges, small electrical items and textiles.
	Pe , no ra the	EARP012* ercentage of on-domestic ites collected by ne authority in ne year	98.4%	29.4%	30.08%	59.49%	61.26%	87.18%	87.32%	<u></u>	1	87.18%	98.14%	The extension of the Small Business Rate Relief coupled with some recent changes to the rating list has made the profile of debt collection different to previous years. Anglia Revenues Partnership (ARP) staff are working hard in the section, but the move to ARP and the work on the IT conversion has caused extra workload for this small team. It is expected to recover by the end of the financial year.

Anglia Revenues Partnership (ARP) shut down its old IT system on 22 July 2011 and was due to go live on Academy week commencing 1 August 2011. Due to technical problems, ARP was unable to access St Edmundsbury Borough Council's data until 18 August 2011. This meant that they were unable to process any changes for nearly a month. ARP are making good progress and the days to process is reducing and are confident this trend will continue. There is ongoing process methodology across the board.
9	SEFIN014* Percentage return on the investment of the council's reserves and balances	1.5%	1.38%	1.5%	1.49%	1.5%	1.48%	1.5%	<u> </u>	1	1.45%	1.29%	The target rate of interest has been set in the expectation of interest rate rises in the latter part of the financial year. If the bank base rate remains unchanged for the remainder of this financial year then the Council's target rate for this period will not be achieved.
10	SEL050* Total Visitors to Nowton/East Town and Abbey Gardens	1,780,000	570,496	450,000	591,339	500,000	363,744	450,000	<u></u>	1	1,525,579		Although October numbers were good, figures were slightly lower than expected in Nowton Park and Abbey Gardens over the Christmas period. This could be due to Christmas day and New Year's day falling on a weekend (usual weekend visitors involved in family activities at home).

Compared to the same quarter last year, the tonnage of blue bin recycling decreased by 74t, brown bin tonnages for composting decreased by 103t and the tonnage of black bin waste increased by 314t. A high performance in Quarter Two however has kept our annual performance on track to achieve the annual target (current average 53.5%).
