----------------------------	--

1. Key issues and reasons for recommendation(s)

1.1 Performance Measures

- 1.1.1 Attached at appendices A to F are the current Balanced Scorecards (based on Head of Service area) which present Quarter 3 2015/16 performance. Unless otherwise stated, all performance figures on the scorecards are from a West Suffolk perspective. Where the performance for either individual Council is significantly different from the West Suffolk figure that it would have a different RAG rating, details of this are highlighted in the comments box.
- 1.1.2 The information included in the report has been provided by Heads of Service and service managers. Most indicators report performance against an agreed target using a traffic light system with additional commentary provided for performance indicators below optimum performance. Other KPIs report a data value only (e.g. no target performance) in order to track performance over time.

1.2 Quarter 3 Performance

- 1.2.1 Across all service balanced scorecards, there are indicators measuring the performance of the transactional finance functions. These are "% of non-disputed invoices paid within 30 days" and "% of debt over 90 days old". In the first and second quarters of the year, against these indicators, almost all service areas had failed to meet the targets of more than 95% of non-disputed invoices paid with 30 days and less than 10% of debt over 90 days old.
- 1.2.2 The finance and performance team have been working with service areas to try and improve performance against both of these measures. Monthly business intelligence reports are sent out to service areas with details of all invoices processed, and detailed aged debt lists. Debt control workshops have also taken place to help improve debt collection performance.
- 1.2.3 As a result of this, three service areas are now achieving over 90% performance on invoices paid within 30 days, with one of these areas achieving over 98%.
