## 1. Key issues and reasons for recommendation(s)

## 1.1 Background

- 1.1.1 The LGA has commenced work on the changing role of the '21<sup>st</sup> Century Elected Member', having recognised that we are living through very fluid and challenging in Local Government. Whilst the outcome of this piece of work will be of interest to us, our Members are already working with change on a significant scale. Impending and current Council challenges are likely to include understanding the impact of the East of England devolution package, including the most appropriate delivery model for local governance across West Suffolk, working across the wider Suffolk system with budgets and partner organisations to deliver services in a joined up and coherent strategy, whilst working as effective community politicians with local communities.
- 1.1.2 The Joint Member Development Group (JMDG) has provided a programme developed in part from a training needs analysis completed annually that aims to equip and develop members for their roles. This offer has been recognised as being successful and effective at the time of the joint award of the Charter for Elected Member Development in September 2014. The Assessors found the following particular strengths:
  - Top political managerial/leadership in driving and supporting the Member Development Agenda.
  - Joint Learning and Development Policy in place across both local authorities with a strong emphasis and reference to Member Development.
  - Comprehensive Joint Member Development Programme in place across both authorities that is linked to corporate priorities and supports Members in achieving their future corporate ambitions.
  - Joint Member Development Group had high calibre officer support available from both Human Resources and Democratic Services to support Members and Member Development.
- 1.1.3 However, given that this was two years ago we must not be complacent in the offer; and we aspire to continuous improvement in the work we do.
- 1.1.4 Feedback and evaluation of the current programme has been very positive (average 4.6/5 for the 2015/16 programme) albeit that attendance at sessions is very low at times (average 17% of Members in attendance) and it appears that often it is the same Members who attend. This has led the Group to consider how best to continue with effective member development that meets the needs of the widest group of members and increases participation and value.

## 1.2 **Review of Terms of Reference**

1.2.1 The Learning and Development Team have given some thought on the evolving needs of the members following the 2014-15 programme, whilst considering the views and attendance of members, along with discussions that have taken place with Members, both at the JMDG meetings and informally.

This has prompted the question – what else can be done in Learning and development terms to help Members with the challenges they face over the next three years.

- 1.2.2 The JMDG has been involved in new ways of supporting Members over the last two years. The 'Front-line Member Events' enabled Members to meet their colleagues at the partner Council, build their networks and working relationships, share intelligence and work together on joint issues. The work done on the shared priorities now in the Corporate Plan further developed the partnership. Core skills training sessions are always welcomed by those who attend – for example 'Understanding Local Government Finance' or working on the Scrutiny, DC or Licensing Committees.
- 1.2.3 It is clear now that there are four strands to the learning and development requirements of members. Members need to be skilled as:
  - Community Leaders in their wards,
  - Effective members and partners with outside bodies and partner organisations
  - Robust decision makers and effective committee members to ensure good governance, scrutiny and decision making within legal and constitutional frameworks
  - Confident and competent members, able to use a range of core skills in order to work smartly within time and priority pressures and be accessible active and effective in the role.
- 1.2.4 The Joint Member Development Group is tasked and given a budget (c£8000 joint per annum) to provide the necessary programme. The Terms of Reference have not been reviewed since December 2013 and Cabinets are therefore asked to consider tasking the JMDG to review their Terms of Reference (and make any necessary amends), and the strands detailed above with a view to supporting the development of a new offer directly linked to the structure and associated skills as listed above.
