

Mid-Year Treasury Management Report 2016/2017

1 Introduction

- 1.1 The Chartered Institute of Public Finance and Accountancy's (CIPFA) Code of Practice on Treasury Management 2009 (the Code) as adopted by Council states that;
- 1.2 The primary requirements of the Code are as follows:
 - a. Creation and maintenance of a Treasury Management Policy Statement which sets out the policies and objectives of the Council's treasury management activities.
 - b. Creation and maintenance of Treasury Management Practices which set out the manner in which the Council will seek to achieve those policies and objectives.
 - c. Receipt by Council of an Annual Treasury Management Strategy Report for the year ahead, a mid year review report (as a minimum) and an annual review report of the previous year.
 - d. Delegation by the Council of responsibilities for implementing and monitoring treasury management policies and practices and for the execution and administration of treasury management decisions.
 - e. Delegation by the Council of the role of scrutiny of treasury management strategy and policies to a specific named body which in this Council is the Performance and Audit Scrutiny Committee.
- 1.3 Treasury management in this context is defined as:

'The management of the local authority's cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks.'
- 1.4 The purpose of this report is to meet one of the above requirements of the CIPFA Code, namely the mid-year review report of treasury management activities, for the financial year 2016/17.

2. Investment Strategy for 2016/17

- 2.1 The Council's 2016/17 Annual Treasury Management and Investment Strategy was approved by full Council on 24 February 2016 (report PAS/FH/16/007 refers). The investment strategy for 2016/17 was to give priority to the security and liquidity of investments whilst at the same time seeking to optimise the return on investments.
- 2.2 The target rate of return for investments for 2016/17 was 1.50%. This target rate was based upon investment rate projections for the year provided by Tradition / CDCM (the Council's treasury management advisors), together with consideration of the profile of the Council's portfolio of investments (i.e. mixture of liquid and fixed term investments). Based upon the anticipated funds available for investment in the year (taking into account planned capital expenditure and receipts from asset disposals) this gave a target investment income of £350k.

3. Interest Rates & Market Activity

- 3.1 On August 4, 2016, the Bank of England reduced the base rate to 0.25% and at the same time introduced a number of measures to provide additional funds, at interest rates close to bank base rate, to the markets following the Brexit decision. One of these measures was the introduction of the Term Funding Scheme to provide funds that will allow the banks and building societies to pass on the rate reduction to consumers and businesses. This has had the knock on effect of making the financial institutions less reliant on money from local authorities. This in turn has reduced the returns available on investments, typical rates for short term, up to 3 months, is base rate or below with medium term 4 to 12 months struggling to achieve 1%.
- 3.2 Markets will continue to be closely monitored and higher rates of return secured whenever possible.

4. The Council's Lending Criteria 2016/17

- 4.1 The Council's Annual Treasury Management and Investment Strategy requires that deposits are only placed with a limited number of high quality banks and building societies whose credit rating is independently assessed as sufficiently secure based on data provided Fitch, Moodys and S&P (ratings agencies) or, for non-rated building societies, subject to their meeting minimum financial criteria (based on asset base size).
- 4.2 The unprecedented nature of the current economic and banking crisis has forced local authorities to keep their lending criteria under constant review to ensure that the balance between security of capital, liquidity of investments and yield on investment income is adequately maintained.
- 4.3 The below tables shows the credit criteria applicable at the 1 April 2016 and 30 September 2016:

<u>Institution</u>	<u>Credit Rating Short Term</u> (Fitch Moody's)	<u>Credit Rating Long Term</u> (Fitch Moody's)	<u>CDCM Maximum Investment</u>	<u>Internally Managed Maximum Investment</u>	<u>Aggregated Maximum Investment per Institution</u>

5 Compliance with Treasury Management Strategy & Code of Practice

5.1 During the first six months of the financial year the Council operated within the approved Treasury limits and Prudential Indicators (as set out in the Council's Treasury Policy Statement and Annual Treasury Strategy Statement, including the above approved changes to lending limits where applicable). No institutions in which investments were made had any difficulty in repaying investments and interest in full during the period.

6 Interest Earned from Treasury Investments during the period 1 April to 30 September 2016

6.1 The table below summaries the interest earned during the period 1 April to 30 September 2016 on the various Treasury Investments held by the Council;

TREASURY MANAGEMENT – INTEREST EARNED SUMMARY	
	£
Temporary Investments – Term Deposits	17,457.61
Externally Managed Funds – CDCM / Tradition	105,601.23
NatWest Liquidity Select Account	1,192.91
Barclays FIBCA Account	6,790.23
Lloyds 95 Day Account	7,282.03
Santander 180 Day Account	5,560.27
Santander 95 Day Account	1,894.92
TOTAL INTEREST EARNED/ACCRUED	£145,778.81

6.2 The budgeted income from investments for the period 1 April to 30 September 2016 was £175,000 (average rate of return of 1.50%). Interest actually earned during the period totalled £145,778 (average rate of return 1.07%), an under-achievement of interest of £29,221.19 and an under-achievement of 0.43% on the average rate of return.

6.3 The under-achievement of interest earned was primarily due to the reduction in cash balances following the purchase of the Toggam Solar Farm.

6.4 The reduced average rate of return is due to the reduction in the Bank of England base rate and resulting reduction of interest rates offered by institutions.

6.5 By year end there is predicted to be an approx. £97k under achievement against budget of interest earned. At the end of 2015 FHDC established an Interest Equalisation Reserve, the current balance of this reserve is £70k. If

required this can be used at year end to mitigate some of this under-achievement.

7 Investment Activity during the period 1 April to 30 September 2016

7.1 The table below summaries the investment activities during the period;

TREASURY MANAGEMENT – INVESTMENT ACTIVITY SUMMARY	
	2016/17 £
Opening Balance 01 April 2016	29,490,000
Investments made during the year (including transfers to business reserve accounts)	52,800,000
Sub Total	82,290,000
Investments realised during the year (including withdrawals from business reserve accounts)	63,865,000
Closing Balance 30 September 2015	18,425,000

7.2 Investments were made with counterparties that met the agreed lending criteria and investment periods. Investment periods range from overnight to five years, dependent on the Council's cash flows, the view on interest rates and the actual interest rates on offer.

7.3 Where possible, investments were made in fixed term investments in order to lock into interest rates which exceed the Council's budgeted rate and to provide some certainty of return for a proportion of the Council's investments.

7.4 During the period, for cash flow generated balances, use was made of the instant access and business reserve accounts with Barclays and NatWest. At 30 September 2016, in order to maintain liquidity whilst at the same time achieving a reasonable rate of return in relation to base rate, £1.52m was held in these accounts at interest rates between 0.25% and 0.30%.

7.5 The table below shows the investments held as at 30 September 2016;

10 Borrowing

- 10.1 The Council borrowed £4.0m on 31 March 2008 to part fund the new Newmarket Leisure Centre. This is a long term loan, for 70 years, to 31 March 2078, at a rate of 4.24%. The loan is on a LOBO basis, which stands for Lenders' Option, Borrowers' Option, which gives the Lender the opportunity to increase the interest rate at pre-set dates throughout the period of the loan, but also gives the Council to option to repay the loan and any accrued interest if they do not want to accept these new terms. The first option date is 31 March 2018 and thereafter the last business day of each successive period of five years.
- 10.2 The first interest payment for 2016/17, £85,032.32, was paid on 30 September 2016.
- 10.3 The Council also has two temporary loans totalling £2,000 which are repayable on 7 days notices. No request to repay either loan has been received during the period covered by this report.
