## 1. Third Quarter Monitoring Report 2016/17

- 1.1 Full details of treasury management activities during the period 1 April to 31 December 2016 are included in **Appendix 1** of this report.
- 1.2 Below is a summary of those investment activities:

INTEREST EARNED & AVERAGE RATE OF RETURN SUMMARY					
	Budget	Actual	Difference		
Investment Interest Earned	£208,112	£327,926	+ £119,814		
Average Rate of Return	0.90%	0.80%	- 0.10%		

- The over-achievement of interest earned was primarily due to higher cash balances being available for investment then expected. These increases in balances are due to timing differences in the collection and payment of Council Tax, NNDR and other revenue streams, and underspends relating to the budgeted capital programme.
- The reduced average rate of return is due to the reduction in the Bank of England base rate and resulting reduction of interest rates offered by institutions.
- As at 31 December 2016 we held £55,450,000 of investments

INVESTMENT ACTIVITY SUMMARY				
	2016/17 £			
Opening Balance 01 April 2016	44,600,000			
Investments made during the year (including transfers to business reserve accounts)	80,300,000
