

St Edmundsbury Borough Council Risk Area	2017/18 Impact £000s	2017/21 MTFS Impact £000s
<p><u>Pay Inflation</u></p> <p>The Council’s MTFS currently assumes a 1% pay inflationary increase for 2017/18, and a 1% inflationary increase for 2018/19 - 2020/21.</p> <p>An annual 1% increase in pay inflation over what is already assumed in the MTFS would result in an additional £554k pressure on the Council’s finances.</p>	<p>132</p>	<p>554</p>
<p><u>Employers Pensions</u></p> <p>The Council’s MTFS currently assumes the following Employers’ Pension Contribution Rates:</p> <p>2017/18 – 28.2% 2018/19 - 30.2% 2019/20 - 32.2% 2020/21 – 34.2%</p> <p>An increase of 1% to the contributions on top of that already budgeted would result in an additional pressure of £463k on the Council’s MTFS.</p>	<p>114</p>	<p>463</p>
<p><u>Employers Pensions - Take-up</u></p> <p>Pension costs budgeted in the MTFS reflect the actual level of staff currently opting into the superannuation scheme.</p> <p>An increase in opt-in levels of 5% would result in an additional pressure of £780k across the MTFS.</p>	<p>173</p>	<p>780</p>
<p><u>Industrial Unit Rental Income</u></p> <p>The Council’s MTFS currently allows for no inflationary increase in Industrial Unit income.</p> <p>If income from Industrial Unit Rents falls by 10% this would put an additional £914k pressure on the MTFS.</p>	<p>217</p>	<p>914</p>
<p><u>Planning Income</u></p> <p>The Council’s Building Control and Planning Application Fees have been set to reflect actual levels currently being achieved. There is, however, a risk that the desired levels of income may not be achieved.</p> <p>If Planning income levels were to drop by 10%, this would have a £389k detrimental impact on the Council’s MTFS.</p>	<p>98</p>	<p>389</p>

St Edmundsbury Borough Council Risk Area	2017/18 Impact £000s	2017/21 MTFS Impact £000s
<p><u>Interest Receipt Rates</u></p> <p>The Council’s current assumptions around interest receipts are as follows:</p> <p>2017/18 - 0.55% 2018/19 - 0.70% 2019/20 - 0.70% 2020/21 - 0.75%</p> <p>A 0.5% reduction in each of these figures would result in approximately £803k pressure on the Council’s MTFS. The council has created a Interest Rate Equalisation Reserve to assist with significant fluctuations in rates in the short term.</p>	<p>230</p>	<p>803</p>
<p><u>Council Tax Collection</u></p> <p>The level of Council Tax receipts in the MTFS are based upon collection rates of 98% for Council Tax and 90% for the additional income generated from changes to the discounts scheme.</p> <p>A fall of 1% in both of these collection rates would have a detrimental effect of £268k across the Council’s MTFS.</p>	<p>67</p>	<p>268</p>
<p><u>Business Rate Retention - Amount collectable</u></p> <p>The Business Rates Retention Scheme commenced from 1 April 2013. Under the new scheme, the Council benefits from a proportion of the additional business rates generated through economic growth in its area. Conversely the risks inherent in such a scheme have now been passed down to local authorities and as such the Council could suffer from an economic decline or the cessation of business from one of its major business ratepayers.</p> <p>A 1% decrease in the business rates collectable across the Borough would result in additional pressure on the MTFS of around £176k per year.</p>	<p>176</p>	<p>737</p>
<p><u>Business Rate Retention - Multiplier</u></p> <p>The business rate retention multiplier is set centrally and is increased annually by the September RPI figures (2.0% as at September 2016 which has been used to inflate the multiplier for 2017/18). The OBR also give indicative RPI figures for future years (currently 3.0% for 2018/19 and 3.2% for 2019/20). The MTFS assumption for 2020/21 has been set at a more prudent level of 2% as this falls outside of the 4 year settlement.</p> <p>A 1% reduction in the RPI below the rates assumed would result in an additional pressure of £105k for the period 2018/19 to 2020/21.</p>	<p>0</p>	<p>105</p>

St Edmundsbury Borough Council Risk Area	2017/18 Impact £000s	2017/21 MTFS Impact £000s
<p><u>Business Rate Retention - post 2020</u></p> <p>The MTFS currently assumes a cost neutral position in 2020/21 when Local Government is expected to be given 100% retention of Business Rates. However, this is untested and will continue to be monitored. If the rebaselining and 100% retention took us back to our settlement baseline only, this would have the impact of £1,110m in 2020/21 and each year thereafter.</p> <p>The council has created a Business Rate Equalisation Reserve to assist with significant impacts of Business Rate Retention and appeals. This reserve would be potentially available to support a short term drop in BR income. However, medium term plans would have to be reviewed.</p>	<p>N/A</p>	<p>N/A</p>
<p><u>Housing Benefit Subsidy/Universal Credits/Housing Benefit Overpavments</u></p> <p>The MTFS currently assumes a 99% subsidy rate within the budgets. A 1% reduction in this subsidy rate for the Council for each year would result in an additional £1,138k pressure on the Council’s MTFS position. The council has created a Housing Benefit Equalisation Reserve to assist with significant fluctuations in subsidy rates and/or overpavment income.</p>	<p>285</p>	<p>1,138</p>
<p><u>Projects</u></p> <p>The MTFS currently assumes net income generation of circa £0.9m per annum by 2020 as a result of a variety of ambitious projects taking place.</p> <p>Risks associated with each of these projects will vary according to the specific set of circumstances but have been considered in the Project Business Cases .</p>	<p>N/A</p>	<p>N/A</p>
<p><u>Borrowing Costs - Interest</u></p> <p>The MTFS includes borrowing costs (interest) amounting to £431k in 2017/18 to fund the ambitious project agenda (£2,707k across the MTFS).</p> <p>If the interest rates assumed increase by 0.5%, there will be an additional pressure of £492k on the councils MTFS position.</p>	<p>78</p>	<p>492</p>
<p>TOTALS (£000s):</p>	<p>1,492</p>	<p>6,151</p>
