

HEAVENS AWAITS LICENSING APPLICATION 2017

I support this application for the renewal of their licence

I did object to their original licence application and this was based on two factors

1 Proximity to childrens' activities and to retail shops

2 It could add to what was a wild west situation at weekends after 11pm

1 There has been no conflict with any of these childrens' activities ,which are normally terminated by 10 pm

2 Once Di Niros closed there was a dramatic reduction in night time anti social activities

In this much quieter atmosphere there have been no disturbances from Heavens .

The test formyself is the effect on the street scene of people going to and of leaving any establishment .

Di Niros on this criteria caused immense disturbance . Whereas you would not know that Heavens was there

So on these criteria I agree with this licence application

Warwick Hirst Resident and a Town Councillor for the Severals Ward
