1. Key issues and reasons for recommendation(s)

1.1 Key Issues

- 1.1.1 This is the second quarter financial monitoring report for Forest Heath District Council; which includes year end forecast outturn figures for large variance items we are aware of. We will continue to monitor the position throughout the year and will update members on any change to this position at the next PASC meeting.
- 1.1.2 Details of the Council's revenue performance and year end forecasted outturn position can be found in **Appendix A** and **B**. Explanations of the main year end forecast over/(under) spends can be found in the table at 1.2.3.
- 1.1.3 The Council's capital financial position is summarised below at 1.3. Further details are provided in **Appendix C**.
- 1.1.4 A summary of the earmarked reserves can be found at **Appendix D** along with the forecast year end position for 2017/18. This appendix is to be considered in the context of the planned medium term reserve position as agreed as part of the Budget and Council Tax 2017/18 setting report in February 2017 (Report No: COU/ FH/17/005), specifically attachment D, appendix 3 Reserves.

1.2 Revenue Performance

- 1.2.1 The current forecast position for the year end is expected to be breakeven. Explanations of the main year end forecast over / (under) spends can be found in the table at 1.2.3 below.
- 1.2.2 Members are requested to note the current position and the significant variances as outlined in the paragraphs below. Budget holders will continue to work with Resources Business Partners and Business Support Advisors and an updated outturn position will be provided to this committee in the quarter 3 report in January.
- 1.2.3 Year end forecast variances over £25,000 are explained in the following table.

Year end forecast variance: Over / (under) spend £000s	Explanation
108	<p><u>Non-Distributed Costs:</u></p> <p>The forecast includes Forest Heath's share of the Pension Capital Costs payment in respect of ill health retirement contributions (over and above our annual allowance – linked to our current pension contribution rates) under the local government pension scheme rules.</p> <p>This is a one-off cost that we are accommodating within the overall budget position.</p>

26	<p><u>Democratic Services:</u></p> <p>The Forecast includes Forest Heath's share of the £80k additional costs to be incurred as a result of the General Data Protection Regulation requirements. £13k has therefore been included in the base costs, with an additional £14k transferred to reserves in respect of 2018/19.</p> <p>We are currently assuming that we will be able to accommodate these additional costs within the overall budget position as reported to Cabinet in October 2017.</p>
(28)	<p><u>Land Charges:</u></p> <p>Land Charges income forecasted to exceed the budget, mainly arising from a significant one-off set of applications for full searches.</p> <p>This has not been factored into future years due to its one-off nature, and the risks around the potential loss, due to a national change, of the LLC1 income for Land Charges are being considered in the light of the 2018/19 budgets going forward.</p>
47	<p><u>Building Control:</u></p> <p>This variance is primarily due to a forecasted underachievement of fee income.</p> <p>Fee income is being closely monitored during 2017/18. The assumptions around income going forward, based upon the council's market share and the team's capacity are being considered as part of the budget setting process. A separate report on this agenda details the challenges faced by this service and the proposed framework for future service development.</p>
Year end forecast variance: Over / (under) spend £000s	Explanation
33	<p><u>Environmental Management:</u></p> <p>Underachievement of fee income currently forecasted. This is due to timing differences in the rollout of the Community Energy Plan (see also appendix C, Capital Programme).</p> <p>Solar for business income is being closely monitored during 2017/18 in line with recent Capital investment with regard to budget assumptions going forward.</p>

(93)	<p><u>Compostable Collection (Brown Bins):</u></p> <p>We are currently in year two of a three year transitional period for the introduction of the subscription-based garden waste collection service.</p> <p>Take-up of the service has continued to be strong and it is performing well. Budgets for the scheme were prudent and performance is currently well under the levels set. There is an aspiration that it can ultimately be fully cost neutral (ie. only those that use it, pay for it) and whilst this isn't yet the case, we are working towards this outcome for the future.</p> <p>This cost centre currently includes a £50k transfer to the Invest to Save Reserve, representing one third of the projected year end position. This reflects the three year nature of the Garden Waste Scheme, and is prudent in terms of the future cost sharing arrangements.</p>
(30)	<p><u>Trade Waste:</u></p> <p>Income from Trade Waste currently forecasted to be higher than budgeted. We have seen a big increase in income during the second Quarter of the year.</p> <p>Income assumptions for this service were revisited during the 2017/18 budget setting process, which are currently being borne out by the projections.</p>
(42)	<p><u>Industrial and Business Units:</u></p> <p>Rental income is currently forecast to exceed budget, and in addition there is a forecast underspend on landlord costs as a result of better occupancy than anticipated.</p>

1.3 **Capital Position**

- 1.3.1 The following table gives a high level summary of capital expenditure against budget for 2017/18. Further details by capital project can be found at **Appendix C**.
- 1.3.2 The Resources Team will continue to work with Budget Holders to monitor capital spend and project progress closely for the remainder of the financial year and an updated position will be presented to this committee on a quarterly basis.
