England		22.4	34.2	100.00	3.57	9.50	20.00	17.64	1.91

Significantly worse than district	Significantly better than district	Similar to district
-----------------------------------	------------------------------------	---------------------

*The Standardised Incidence Ratio (SMR) is quoted as a ratio. If this is equal to 100, then this means the number of observed deaths equals that of expected cases.

If higher than 100, then there is a higher number of deaths than is expected.

Data sources: PHE - Local health (ward level) and PHE Fingertips (district level)

Data sources: PHE Local health (data available at ward level) and PHE Fingertips (data available at district level) Data downloaded: Aug 2019

Statistical significance – comparisons comparing results for areas

Fingertips data. Indicator source:
