Licensing application by Angellus Hotels Tuddenham

Email of 13/07/2020

Dear Licensing team,

I would like to object to the above application for a 24hour, 7 days a week license for the Meadow behind Tuddenham Mill.

I understand Wedding and events are behind the license but I would like to point out that 350 people live in the Village of Tuddenham

Most of the surrounding land is protected at SSSI because it is a site of special scientific interest and is the habitat of very rare butterflies and the protected Stone Curlews.

Most people live in this rural village and don't want 24 hour parties happening 7 days a week without the right to a full night's sleep.

The Mill is very close to the centre of the village and should balance the needs of full time village residents with the visiting customers coming on a regular basis for a very long alcohol fuelled party at all hours of the day and night.

I am completely opposed to this application for an extended license,

Many thanks,

Martin, Hugo, Phoebe Soons and

Karen Soons  
Tuddenham Parish Councillor

Tuddenham mill extended license

Email of 13/06/2020

[THIS IS AN EXTERNAL EMAIL]

I am Mr Bryan Keith Musk of :-: and would like to voice my concerns and objection, over the extended live and recorded music licence, to seven days a week till midnight of the Tuddenham Mill. Because of the noise disruption of loud outside music. I do not have a problem with the mill and think that Friday to Sunday is more reasonable also as a keen wild life person I think it's not also fair with local wild life and will cause disruption to species like the booming bat population we have around the village and mill.
