

This reserve has been set up in order to support the delivery of the council's growth agenda.

The table below shows the current balance on this reserve over the term of the Medium Term Financial Strategy (MTFS). The 2018 to 2019 budget setting process included a four year funding agreement for additional resourcing capacity to deliver the "Investing in our Growth Agenda" Strategy. These resources had a four year funding agreement from this reserve. Following a review in 2020, those resources that were still deemed necessary to continue the delivery of the council's ambitions under this strategy were included in the base budget from April 2022.

There is no current planned utilisation of this reserve, however the balance remains earmarked towards support of the strategy and delivery of our growth priorities, alongside the residual balance of the £40 million capital fund (detailed in the capital programme).
