

Development Control Committee 7 December 2022

Planning Application DC/21/2094/OUT – Townsend Nurseries, Snow Hill, Clare

| | | | |
|-------------------------|--|------------------------|-----------------------------|
| Date registered: | 31 January 2022 | Expiry date: | 4 November 2022 |
| Case officer: | Charlotte Waugh | Recommendation: | Approve application |
| Parish: | Clare Town Council | Ward: | Clare, Hundon and Kedington |
| Proposal: | Outline planning application (means of access to be considered) - 20 dwellings | | |
| Site: | Townsend Nurseries, Snow Hill, Clare | | |
| Applicant: | Mr C Parker & Mrs C Cockerill | | |

Synopsis:

Application under the Town and Country Planning Act 1990 and the (Listed Building and Conservation Areas) Act 1990 and associated matters.

Recommendation:

It is recommended that the committee determine the attached application and associated matters.

CONTACT CASE OFFICER:

Charlotte Waugh

Email: charlotte.waugh@westsuffolk.gov.uk

Telephone: 01284 757349

Section A – Background

The application was considered at the Development Control Committee meeting on 2 November 2022.

Officers recommended that the planning application be approved, subject to conditions as set out in the report. This recommendation was in conflict with the view of Clare Town Council who objected to the proposals.

Members at the meeting resolved to defer the application for a site visit prior to making a decision. This would allow Members to view the access and crossing position and consider visibility and on-street parking. Members also wished further communication to take place with Anglian Water given the local objection on the frequency of burst water pipes.

The previous Officer report for the 2 November 2022 meeting of the Development Control Committee is included as Working Paper 1 to this report. Members are directed to this paper for details of the site and development, summaries of consultation responses and neighbour representations, and for the officer assessment of the proposal.

Proposal

1. Please refer to Working Paper 1 Paragraph 1 for a description of the proposal.

Application Supporting Material:

2. Please refer to Working Paper 1 Paragraph 3 for a description of the supporting material.

Site Details:

3. Please refer to Working Paper 1 Paragraph 4 for site details.

Planning History

4. There is no recorded planning history.

Consultations:

5. Please refer to Working Paper 1 for a summary of consultation responses.

Additionally, the following summarised responses have been received:

6. West Suffolk Environment Team

The proposals are for 20 dwellings. In considering the need for an air quality assessment I have consulted the document produced by the Institute of Air Quality Management (IAQM) and Environmental Protection UK (EPUK), Land-Use Planning & Development Control: Planning for Air Quality, 2017. This document provides thresholds for undertaking an air quality assessment for new developments, the most relevant of which would be a change in light duty vehicle traffic flows of 500 AADT. There does not appear to be a traffic assessment detailing expected traffic flows from the development, however, 20 dwellings is unlikely to provide anywhere near the 500 additional

movements needed to trigger an air quality assessment. There is therefore no basis for requesting an air quality assessment. We have requested a condition requiring all dwellings to be provided with EV charge points. Air quality will continue to improve over the next decade as the transition to zero tailpipe emission vehicles continues.

7. **SCC Infrastructure Manager**

Previous responses for this application have been submitted by way of letters dated 15 February 2022, and 21 July 2022. The following updates the level of contributions based on the net increase of 18 dwellings (2 x existing dwellings to be demolished).

| Service requirement | Capital contribution |
|---|-----------------------------|
| Library improvement - £216 + £16 per dwelling | £4,176 |
| Waste - £97 per dwelling | £1,746 |
| Education : | |
| Secondary 3 - £25,253 per place | £75,759 |
| Sixth Form 1 - £25,253 per place | £25,253 |
| Monitoring fee (per trigger point) | £476 |

Representations:

8. Please refer to Working Paper 1 for representations received.

Policy:

9. Please refer to Working Paper 1 for a list of policies and guidance that have been taken into account in the consideration of the application.

Officer Comment

10. Please refer to Working Paper 1 from Paragraph 27 for the officer assessment of the proposals.

Update

Air Quality

11. Following the 2 November 2022 meeting of the Development Control Committee, a further response was sought from the Environment Team in response to concerns raised over air quality. As detailed above, the scale of development does not meet the threshold for requiring such an assessment. To combat air quality a condition is recommended ensuring electric vehicle charge points are provided for all dwellings.

Developer contributions

12. The applicant has queried the S106 contributions given that two dwellings are currently on site and will be removed to facilitate the development. On that basis, there is a net increase of 18 dwellings as opposed to 20. Suffolk County Council infrastructure manager has recalculated the contributions, reducing the amount required for libraries, waste and education.

13. The applicant has agreed the above obligations as well as the inclusion of on-site affordable housing and a draft S106 agreement has been provided. Consequently, the development is policy compliant in this regard.

Water mains

14. Whilst the Local Authority has sought the view of Anglian Water on the current situation with the water mains, at the time of writing no response has been received. Officers will continue attempts to make contact and will update the committee through a late paper or verbally if anything is received.

15. Notwithstanding this, whilst it is appreciated that residents are frustrated with frequent burst water pipes and the inconvenience they pose in terms of diversions and access, this application is not responsible for resolving this existing issue and it would be unreasonable to withhold consent on that basis.

Access

16. The Highway Authority is satisfied with the position of the access and the visibility splays provided. Furthermore, the principle of a crossing gains their support and the technical details will be approved through a planning condition.

Conclusion

17. No statutory consultees have objected to the scheme and the Highway Authority are satisfied that a safe access and crossing can be provided to facilitate access for all. The development is considered to accord with the development plan and will provide both market and affordable housing within a sustainable location. It is considered that the development is in compliance with the relevant development plan policies and with the National Planning Policy Framework.

Recommendation and conditions

18. The Officer recommendation remains one of **APPROVAL**, subject to;

A signed S106 agreement to secure the following:

- 30% affordable housing
- £75,759 for Secondary school provision (3 places)
- £25,253 for post 16 education (1 place)
- £4,176 for libraries
- £1,746 for waste recycling centre

And the following conditions as per Working Paper 1:

- 1 Application for the approval of the matters reserved by conditions of this permission shall be made to the Local Planning Authority before the expiration of three years from the date of this permission. The development hereby permitted shall be begun not later than whichever is the latest of the following dates:-
 - i) The expiration of three years from the date of this permission; or
 - ii) The expiration of two years from the final approval of the reserved matters; or,

In the case of approval on different dates, the final approval of the last

such matter to be approved.

Reason: To conform with the requirements of Section 92 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

- 2 Prior to commencement of development details of the appearance, landscaping, layout and scale [access, appearance, landscaping, layout, and scale] (hereinafter called "the reserved matters") shall be submitted to and approved in writing by the Local Planning Authority. The development shall be carried out as approved.

Reason: Required to be imposed pursuant to Section 92 of the Town and Country Planning Act 1990 (as amended) and to enable to the Local Planning Authority to exercise proper control over these aspects of the development.

- 3 The development hereby permitted shall not be carried out except in complete accordance with the details shown on the following approved plans and documents, unless otherwise stated below:

Location Plan
Highway Plan 184-2019-02 P1

Reason: To define the scope and extent of this permission.

- 4 Prior to commencement of development the following components to deal with the risks associated with contamination of the site shall each be submitted to and approved, in writing, by the Local Planning Authority:
 - a. A site investigation scheme,
 - b. The results of a site investigation based on i) and a detailed risk assessment, including a revised Conceptual Site Model (CSM),
 - c. Based on the risk assessment in ii), a remediation strategy giving full details of the remediation measures required and how they are to be undertaken. The strategy shall include a plan providing details of how the remediation works shall be judged to be complete and arrangements for contingency actions.

Reason: To protect and prevent the pollution of controlled waters, future end users of the land, neighbouring land, property and ecological systems from potential pollutants associated with current and previous land uses in accordance with policy DM14 of the West Suffolk Joint Development Management Policies Document 2015, Paragraphs 170,178 and 179 of the National Planning Policy Framework (NPPF), Environment Agency Groundwater Protection: Principles and Practice (GP3) and all relevant Core Strategy Policies. This condition requires matters to be agreed prior to commencement since it relates to consideration of below ground matters that require resolution prior to further development taking place, to ensure any contaminated material is satisfactorily dealt with.

- 5 No occupation of any part of the permitted development shall take place until a verification report demonstrating completion of works as set out in the remediation strategy is submitted to and approved, in writing by the Local Planning Authority.

Reason: To protect and prevent the pollution of controlled waters, future end users of the land, neighbouring land, property and ecological systems from potential pollutants associated with current and previous land uses in accordance with policy DM14 of the West Suffolk Joint Development Management Policies Document 2015, Paragraphs 170,178 and 179 of the National Planning Policy Framework (NPPF), Environment Agency Groundwater Protection: Principles and Practice (GP3) and all relevant Core Strategy Policies.

- 6 If, during development, contamination not previously identified is found to be present at the site then no further development (unless otherwise agreed in writing with the Local Planning Authority) shall be carried out until the developer has submitted a remediation strategy to the Local Planning Authority detailing how this unsuspected contamination shall be dealt with and obtained written approval from the Local Planning Authority. The remediation strategy shall be implemented as approved.

Reason: To protect and prevent the pollution of controlled waters, future end users of the land, neighbouring land, property and ecological systems from potential pollutants associated with current and previous land uses in accordance with policy DM14 of the West Suffolk Joint Development Management Policies Document 2015, Paragraphs 170,178 and 179 of the National Planning Policy Framework (NPPF), Environment Agency Groundwater Protection: Principles and Practice (GP3) and all relevant Core Strategy Policies.

- 7 Concurrent with the first reserved matters application(s) a surface water drainage scheme shall be submitted to, and approved in writing by, the local planning authority (LPA). The scheme shall be in accordance with the approved FRA and include:
- a. Dimensioned plans and drawings of the surface water drainage scheme;
 - b. Further infiltration testing on the site in accordance with BRE 365 and the use of infiltration as the means of drainage if the infiltration rates and groundwater levels show it to be possible;
 - c. If the use of infiltration is not possible then modelling shall be submitted to demonstrate that the surface water runoff will be restricted to Q_{bar} or 2l/s/ha for all events up to the critical 1 in 100 year rainfall events including climate change as specified in the FRA;
 - d. Modelling of the surface water drainage scheme to show that the attenuation/infiltration features will contain the 1 in 100 year rainfall event including climate change;
 - e. Modelling of the surface water conveyance network in the 1 in 30 year rainfall event to show no above ground flooding, and modelling of the volumes of any above ground flooding from the pipe network in a 1 in 100 year rainfall event including climate change, along with topographic plans showing where the water will flow and be stored to ensure no flooding of buildings or offsite flows;
 - f. Topographical plans depicting all exceedance flow paths and demonstration that the flows would not flood buildings or flow offsite, and if they are to be directed to the surface water drainage system then the potential additional rates and volumes of surface water must be included within the modelling of the surface water system;
 - g. Details of the maintenance and management of the surface water drainage scheme shall be submitted to and approved in writing by the

local planning authority.

h. Details of a Construction Surface Water Management Plan (CSWMP) detailing how surface water and storm water will be managed on the site during construction (including demolition and site clearance operations) is submitted to and agreed in writing by the local planning authority. The CSWMP shall be implemented and thereafter managed and maintained in accordance with the approved plan for the duration of construction. The approved CSWMP shall include: Method statements, scaled and dimensioned plans and drawings detailing surface water management proposals to include:-

- i. Temporary drainage systems
- ii. Measures for managing pollution / water quality and protecting controlled waters and watercourses
- iii. Measures for managing any on or offsite flood risk associated with construction.

The scheme shall be fully implemented as approved.

Reason: To prevent flooding by ensuring the satisfactory storage and disposal of surface water from the site for the lifetime of the development, in accordance with policies DM6 and DM14 of the West Suffolk Joint Development Management Policies Document 2015, Chapter 14 of the National Planning Policy Framework and all relevant Core Strategy Policies.

- 8 Within 28 days of practical completion of the last dwelling or unit, a Sustainable Drainage System (SuDS) verification report shall be submitted to the LPA, detailing that the SuDS have been inspected, have been built and function in accordance with the approved designs and drawings. The report shall include details of all SuDS components and piped networks have been submitted, in an approved form, to and approved in writing by the LPA for inclusion on the Lead Local Flood Authority's Flood Risk Asset Register.

Reason: To ensure that the surface water drainage system has been built in accordance with the approved drawings and is fit to be put into operation and to ensure that the Sustainable Drainage System has been implemented as permitted and that all flood risk assets and their owners are recorded onto the LLFA's statutory flood risk asset register as required under s21 of the Flood and Water Management Act 2010 in order to enable the proper management of flood risk within the county of Suffolk
<https://www.suffolk.gov.uk/roads-and-transport/flooding-and-drainage/flood-risk-asset-register/>

- 9 All mitigation and enhancement measures and/or works shall be carried out in accordance with the details contained in the Preliminary Ecology report (Framlingham Environmental, 25th August 2020) and Bat Surveys (Aspen Ecology, 22 July 2021) as already submitted with the planning application and agreed in principle with the local planning authority prior to determination. This may include the appointment of an appropriately competent person e.g. an ecological clerk of works (ECoW) to provide on-site ecological expertise during construction. The appointed person shall undertake all activities, and works shall be carried out, in accordance with the approved details.

Reason: To conserve and enhance protected and Priority species and allow the Local Planning Authority to discharge its duties under the Conservation of Habitats and Species Regulations 2017 (as amended), the Wildlife & Countryside Act 1981 as amended and s40 of the NERC Act 2006 (Priority habitats & species) as updated by the Environment Act 2021.

- 9 Concurrent with reserved matters a Reptile Mitigation Strategy addressing the mitigation of reptiles has been submitted to and approved in writing by the local planning authority.
- The Reptile Mitigation Strategy shall include the following.
- a) Purpose and conservation objectives for the proposed works.
 - b) Review of site potential and constraints.
 - c) Detailed design(s) and/or working method(s) to achieve stated objectives.
 - d) Extent and location/area of proposed works on appropriate scale maps and plans.
 - e) Type and source of materials to be used where appropriate, e.g. native species of local provenance.
 - f) Timetable for implementation demonstrating that works are aligned with the proposed phasing of development.
 - g) Persons responsible for implementing the works.
 - h) Details of initial aftercare and long-term maintenance of the Receptor area(s).
 - i) Details for monitoring and remedial measures.
 - j) Details for disposal of any wastes arising from works.

The Reptile Mitigation Strategy shall be implemented in accordance with the approved details and all features shall be retained in that manner thereafter.

Reason: To allow the Local Planning Authority to discharge its duties under the Wildlife & Countryside Act 1981 (as amended) and s40 of the NERC Act 2006 (Priority habitats & species) & Countryside Act 1981 (as amended) and s40 of the NERC Act 2006 (Priority habitats & species).

- 10 Concurrent with reserved matters a construction environmental management plan (CEMP: Biodiversity) shall be submitted to and approved in writing by the local planning authority.
- The CEMP (Biodiversity) shall include the following.
- a) Risk assessment of potentially damaging construction activities.
 - b) Identification of "biodiversity protection zones".
 - c) Practical measures (both physical measures and sensitive working practices) to avoid or reduce impacts during construction (may be provided as a set of method statements).
 - d) The location and timing of sensitive works to avoid harm to biodiversity features.
 - e) The times during construction when specialist ecologists need to be present on site to oversee works.
 - f) Responsible persons and lines of communication.
 - g) The role and responsibilities on site of an ecological clerk of works (ECoW) or similarly competent person.
 - h) Use of protective fences, exclusion barriers and warning signs.
 - i) Containment, control and removal of any Invasive non-native species present on site

The approved CEMP shall be adhered to and implemented throughout the construction period strictly in accordance with the approved details, unless otherwise agreed in writing by the local planning authority

Reason: To conserve protected and Priority species and allow the Local Planning Authority CEMP to discharge its duties under the Conservation of Habitats and Species Regulations 2017 (as amended), the Wildlife & Countryside Act 1981 (as amended) and s40 of the NERC Act 2006 (Priority habitats & species).

- 11 Concurrent with reserved matters a Biodiversity Enhancement Strategy for protected and Priority species shall be submitted to and approved in writing by the local planning authority.
The content of the Biodiversity Enhancement Strategy shall include the following:
- a) Purpose and conservation objectives for the proposed enhancement measures;
 - b) detailed designs to achieve stated objectives;
 - c) locations of proposed enhancement measures by appropriate maps and plans;
 - d) timetable for implementation demonstrating that works are aligned with the proposed phasing of development;
 - e) persons responsible for implementing the enhancement measures;
 - f) details of initial aftercare and long-term maintenance (where relevant).

The works shall be implemented in accordance with the approved details prior to occupation and shall be retained in that manner thereafter.

Reason: To enhance protected and Priority species & habitats and allow the Local Planning Authority to discharge its duties under the s40 of the NERC Act 2006 (Priority habitats & species).

- 12 Prior to occupation a lighting design scheme for biodiversity shall be submitted to and approved in writing by the local planning authority. The scheme shall identify those features on site that are particularly sensitive for bats and that are likely to cause disturbance along important routes used for foraging; and show how and where external lighting will be installed (through the provision of appropriate lighting contour plans, Isolux drawings and technical specifications) so that it can be clearly demonstrated that areas to be lit will not disturb or prevent bats using their territory.

All external lighting shall be installed in accordance with the specifications and locations set out in the scheme and maintained thereafter in accordance with the scheme. Under no circumstances should any other external lighting be installed without prior consent from the local planning authority.

Reason: To allow the Local Planning Authority to discharge its duties under the Conservation of Habitats and Species Regulations 2017 (as amended), the Wildlife & Countryside Act 1981 as amended and s40 of the NERC Act 2006 (Priority habitats & species).

- 13 Prior to commencement of development details of the proposed access (including the position of any gates to be erected and visibility splays

provided) shall be submitted to and approved in writing by the Local Planning Authority. The approved access shall be laid out and constructed in its entirety prior to any other part of the development taking place. Thereafter the access shall be retained thereafter in its approved form.

Reason: To ensure that the access is designed and constructed to an appropriate specification and made available for use at an appropriate time, in accordance with policy DM2 of the West Suffolk Joint Development Management Policies Document 2015, Chapter 9 of the National Planning Policy Framework and all relevant Core Strategy Policies. This condition requires matters to be agreed prior to commencement since it relates to highway safety and it is necessary to secure details prior to any other works taking place.

- 14 Before the access is first used, visibility splays shall be provided as shown on Drawing No. 184/2019/02 and thereafter be retained in the approved form. Notwithstanding the provisions of Part 2, Class A of the Town and Country Planning (General Permitted Development) Order 2015 as amended (or any Order revoking and re-enacting that Order) no obstruction over 0.6 metres high shall be erected, constructed, planted or permitted to grow within the area of the visibility splays.

Reason: To ensure vehicles exiting the access have sufficient visibility to enter the public highway safely and vehicles on the public highway have sufficient warning of a vehicle emerging, in accordance with policy DM2 of the West Suffolk Joint Development Management Policies Document 2015, Chapter 9 of the National Planning Policy Framework and all relevant Core Strategy Policies.

- 15 No development above ground shall take place until details have been submitted to and approved in writing by the Local Planning Authority showing the means to prevent the discharge of surface water from the development onto the highway. The approved scheme shall be carried out in its entirety before the access is first used and shall be retained thereafter in its approved form.

Reason: To prevent hazards caused by flowing water or ice on the highway, in accordance with policy DM2 and DM6 of the West Suffolk Joint Development Management Policies Document 2015, Chapters 9 and 14 of the National Planning Policy Framework and all relevant Core Strategy Policies.

- 16 Before the development is commenced details of a new footway and pedestrian crossing to the frontage of the proposed development shall be submitted to and approved in writing by the Local Planning Authority. The footway shall be laid out and constructed fully before first occupation of any dwellings The footway shall be retained thereafter in its approved form.

Reason: In the interests of highway safety and sustainable development by providing a footway at an appropriate time where no provision may deter people from walking. This is a pre-commencement condition because insufficient details have been submitted at planning stage.

- 17 Before the development is commenced, details of the roads and footpaths,

(including layout, levels, gradients, surfacing, lighting, traffic calming and means of surface water drainage), shall be submitted to and approved in writing by the Local Planning Authority.

Reason: In the interests of highway safety to ensure that roads/footways are constructed to an acceptable standard

- 18 No above ground development shall take place until details of the areas to be provided for the loading, unloading, manoeuvring, parking of vehicles, including secure cycle storage, have been submitted to and approved in writing by the Local Planning Authority. The approved scheme shall be carried out in its entirety before the development is brought into use and shall be retained thereafter and used for no other purpose.

Reason: To ensure that sufficient space for the on-site parking of vehicles is provided, in accordance with policy DM2 and DM46 of the West Suffolk Joint Development Management Policies Document 2015, Chapters 9 and 12 of the National Planning Policy Framework and all relevant Core Strategy Policies.

- 19 No development shall take place on site until the implementation of a programme of archaeological work has been secured, in accordance with a Written Scheme of Investigation which has been submitted to and approved in writing by the Local Planning Authority. The scheme of investigation shall include an assessment of significance and research questions; and:
- a. The programme and methodology of site investigation and recording.
 - b. The programme for post investigation assessment.
 - c. Provision to be made for analysis of the site investigation and recording.
 - d. Provision to be made for publication and dissemination of the analysis and records of the site investigation.
 - e. Provision to be made for archive deposition of the analysis and records of the site investigation.
 - f. Nomination of a competent person or persons/organisation to undertake the works set out within the Written Scheme of Investigation.
 - g. Timetable for the site investigation to be completed prior to development, or in such other phased arrangement, as agreed and approved in writing by the Local Planning Authority.

Reason: To safeguard archaeological assets within the approved development boundary from impacts relating to any groundworks associated with the development scheme and to ensure the proper and timely investigation, recording, reporting and presentation of archaeological assets affected by this development in accordance with policy DM20 of the West Suffolk Joint Development Management Policies Document 2015, Chapter 16 of the National Planning Policy Framework and all relevant Core Strategy Policies. This condition is required to be agreed prior to the commencement of any development to ensure matters of archaeological importance are preserved and secured early to ensure avoidance of damage or loss due to the development and/or its construction. If agreement was sought at any later stage there is an unacceptable risk of loss and damage to archaeological and historic assets.

- 20 No building shall be occupied or otherwise used until the site investigation

and post investigation assessment has been completed in accordance with the programme set out in the Written Scheme of Investigation approved under Condition 19 and the provision made for analysis, publication and dissemination of results and archive deposition has been secured.

Reason: To safeguard archaeological assets within the approved development boundary from impacts relating to any groundworks associated with the development scheme and to ensure the proper and timely investigation, recording, reporting and presentation of archaeological assets affected by this development in accordance with policy DM20 of the West Suffolk Joint Development Management Policies Document 2015, Chapter 16 of the National Planning Policy Framework and all relevant Core Strategy Policies.

- 21 Demolition or construction works shall not take place outside 08:00 hours to 18:00 hours Mondays to Fridays and 08:00 hours to 13:30 hours on Saturdays and at no time on Sundays, public holidays or bank holidays.

Reason: To protect the amenity of occupiers of adjacent properties from noise and disturbance, in accordance with policies DM2 and DM14 of the West Suffolk Joint Development Management Policies Document 2015, Chapter 15 of the National Planning Policy Framework and all relevant Core Strategy Policies.

- 22 Prior to first occupation, all dwellings shall be provided with an operational electric vehicle charge point at reasonably and practicably accessible locations, with an electric supply to the charge point capable of providing a 7kW charge.

Reason: To promote and facilitate the uptake of electric vehicles on the site in order to minimise emissions and ensure no deterioration to the local air quality, in accordance with Policy DM14 of the Joint Development Management Policies Document, Paragraphs 105 and 110 of the National Planning Policy Framework Paragraphs 105 and 110 and the Suffolk Parking Standards.

- 23 Before the development hereby permitted is commenced a Construction Management Plan shall have been submitted to and approved in writing by the Local Planning Authority. Construction of the development shall not be carried out other than in accordance with the approved plan. The Construction Management Plan shall include the following matters:
- a) parking and turning for vehicles of site personnel, operatives and visitors
 - b) loading and unloading of plant and materials
 - c) piling techniques (if applicable)
 - d) storage of plant and materials
 - e) provision and use of wheel washing facilities
 - f) programme of site and all associated works such as utilities including details of traffic management necessary to undertake these works
 - g) site working and delivery times
 - h) a communications plan to inform local residents of the program of works
 - i) provision of boundary hoarding and lighting
 - j) details of proposed means of dust suppression
 - k) details of measures to prevent mud from vehicles leaving the site

during construction

l) haul routes for construction traffic on the highway network and

m) monitoring and review mechanisms.

n) Details of deliveries times to the site during construction phase

Reason: In the interest of highway safety to avoid the hazard caused by mud on the highway and to ensure minimal adverse impact on the public highway during the construction phase. This is a pre-commencement condition because an approved Construction Management Plan must be in place at the outset of the development.

- 24 Before the development is commenced details of the areas to be provided for the storage and presentation for collection/emptying of refuse and recycling bins shall be submitted to and approved in writing by the Local Planning Authority. The approved bin storage and presentation/collection area shall be provided for each dwelling prior to its first occupation and shall be retained thereafter for no other purpose

Reason: To ensure that space is provided for refuse and recycling bins to be stored and presented for emptying and left by operatives after emptying clear of the highway and access to avoid causing obstruction and dangers for the public using the highway and in accordance with Suffolk Guidance for Parking 2019

- 25 The dwelling(s) hereby approved shall not be occupied until the requirement for water consumption (110 litres use per person per day) in part G of the Building Regulations has been complied with and evidence of compliance has been obtained.

Reason: To ensure that the proposal meets with the requirements of sustainability, in accordance with policy DM7 of the West Suffolk Joint Development Management Policies Document 2015, Chapter 14 of the National Planning Policy Framework and all relevant Core Strategy Policies. The higher standards for implementation of water efficiency measures set out in the Building Regulations are only activated if they are also a requirement of a planning condition attached to a planning permission.
