

Triangular beds, edged with timber sleepers, to provide approx 200mm high raised edge, planted with simple ground cover and silver birch and Scots pine

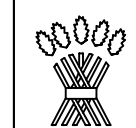

Proposed cycle stands

Forecourt to be 'Tegula Priora' blocks laid as permeable surface. Colour to match retained block paving adjacent to Community Center

'Cross' paths to be asphalt concrete, dressed with bound gravel edged with 100mm course of paving blocks

Proposed black asphalt concrete (i.e. 'Tarmac') surface
