- Health - £174,200.00
- Allow the construction of the future foot/cycle bridge north of the railway line.
- Off site skylark habitat compensation.

Update to paragraph 74 as shown on page 26

The applicant is able to provide 30% Affordable Housing **and** the Play Space contribution of £90,000. At the time of writing the officer report for the application it was considered that both could not be delivered by the applicant and that therefore members were asked to guide officers as to their preference. That position has now changed and the applicant has confirmed that they are able to provide both.

Additional recommendation update to page 26.

Officers are seeking delegated powers to approve the scheme as proposed with the S106 heads of terms as detailed above and the conditions as outlined above in consultation with the Chairman of Development Control Committee, Portfolio Holder for Planning and Growth and the Service Manager for Development Management, following an additional period of 21 days consultation and confirmation from the Highway Authority that they still have no objection to the scheme having inspected any objections received in that period.
